Proposed amendment to the ANZIAM constitution.

Purpose: The purpose of this amendment is to increase the number of co-opted members of the ANZIAM executive committee. The current constitution permits 3 co-opted members who currently are the web editor, one ICIAM representative and a student representative. The executive committee would like to also co-opt an early career representative and leave room for a further co-opted member without having to amend the constitution again.

The amendment is to Section 9 of the constitution which currently reads:

9. The Executive Committee of ANZIAM shall consist of the Officers mentioned in 7, the Chairs of the specialist Groups of ANZIAM, up to eight further elected Regional Members, one for each of the ANZIAM regions, and, up to three co-opted Members. The President of the Australian Mathematical Society, or the President's nominee, and the Editor of the ANZIAM Journal, shall be *ex officio* members of the Executive Committee.

The amendment is to delete the word “three” in the third line and substitute the word “five” so that the amended section will read:

The Executive Committee of ANZIAM shall consist of the Officers mentioned in 7, the Chairs of the specialist Groups of ANZIAM, up to eight further elected Regional Members, one for each of the ANZIAM regions, and, up to ***five*** co-opted Members. The President of the Australian Mathematical Society, or the President's nominee, and the Editor of the ANZIAM Journal, shall be *ex officio* members of the Executive Committee.

(Change is shown in bold italics.)
